EXECUTIVE SUMMARY

Subject: Purchase of a High-Speed Snow Broom and Plow

Background: The airport currently has one high-speed snow broom. This is the most essential piece of equipment in the airport's snow removal fleet. Plows are not able to remove thin layers of slush and ice from the runway and taxiway surfaces without damaging the pavement. The snow broom is able to remove these thin layers of surface contaminant without damage to the pavement. Additionally, when liquid deicer is applied to the surface, the broom is able to improve its effectiveness rapidly.

Discussion: The airport's priority 1 snow removal area is significant and includes the main runway and several taxiways. The purchase of a second broom would enable more rapid removal of the thin layer of ice and snow that limits braking ability. Additionally if one broom should fail or need maintenance during an extended snow event, the second broom will be able to continue performing essential removal.

The airport also included a 32 degree left and right angle, 20' plow attachment. The airport currently does not have a plow of this size with the flared angle. Adding this plow to the fleet will allow snow to be thrown far enough from runway and taxiway edges to reduce problematic snow banks.

Bid Summary:

M-B Company

Broom: \$472,192 Plow: \$37,233
TOTAL: \$509,425

Wausau-Everest

Broom: \$490,000 Plow: \$34,000
TOTAL: \$524,000

Oshkosh

Broom: \$485,792 Plow: \$40,342
TOTAL: \$526,135

Budget Impact: The bids for this project came in significantly lower than the last broom purchased in 2011. The cost of the equipment will be paid for with 50% state discretionary funds and 50% PFC funds.

Action: Recommend approval of M-B Company's proposal for the purchase of the high-speed snow broom and plow contingent upon the award of state discretionary funding.

RE: June 2014 Financial Highlights

The Airport reported a net loss of \$148K for the month against a budgeted gain of \$20K and last June's net loss of \$154K. Revenues totaled \$706K, \$51K or 6.7% below budget and \$38K or 5.7% above last June. Our expenditures this month totaled \$854K, \$117K or 15.9% above budget and \$32K, or 3.9% above last June. The highlights for this month's results are as follows:

❖ Actual vs. Budgeted Revenues

- Airfield revenues ended at \$124K. This was \$66K or 34.7% below budget. This was caused by the state maintenance grant coming in \$63K below budget. Revenues were recognized throughout the year rather than just in June as budgeted.
- Administrative revenues ended at \$17K. This was \$15K greater than budgeted expectations. The airport submitted additional air service expenses to the state and was reimbursed an additional \$15K for the year.

❖ Actual vs. Prior Year Revenue

- Other rents revenues were \$23K or 91.2% better than last June. This occurred because of the rent credits given to PeoplExpress last June totaling \$28K.

❖ Actual vs. Budgeted Expenditures

- Total expenditures were unfavorable \$117K or 15.9%. The unfavorable expense variance is attributed to all the marketing & advertising expenses related to PeoplExpress launch. Total expense was \$262K against a budget of \$46K,

unfavorable variance of \$216K. Labor & benefits, utilities and janitorial supplies were all favorable \$49K, \$8K, and \$9K, respectively.

❖ Actual vs. Prior Year Expenditures

- Overall expenditures were \$32K or 3.9% higher compared to last June. The most significant variance was marketing and advertising expenses. Last June we spent \$218K less. Again this is as a result of advertising the launch of PeoplExpress. Labor & benefits, utilities and janitorial supplies were all favorable \$169K, \$7K, and \$9K, respectively. The large favorable variance for Labor & benefits is due to the employee bonuses received last June.

❖ YTD Actual vs. Budget

- Overall revenues were \$181K or 2.3% below budget. The shortfall comes from the landside cost center. Parking revenue was \$269K down for the year and CFCs were short \$32K. Rental car commissions were favorable \$117K.
- Expenditures were \$75K or 1% above budget. This is as a result of dollars spent on advertising and marketing. The total spent for the year was \$985K against a budget of \$550K, ending the year \$435K unfavorable. Labor & benefits ended \$234K favorable, as well as utilities, maintenance, and janitorial supplies. They were favorable \$32K, \$31K, and \$30K respectively.

❖ YTD Actual vs. Prior Year

- Overall revenues were \$419K or 5.1% below last June. Parking revenue was \$264K down year over year and CFCs were short \$54K. Rental car commissions ended slightly favorable at \$8K above last year and Taxi revenue declined \$9K. Revenue from the state marketing/air service grant was reduced by \$29K compared to last year.
- Expenditures compared to last fiscal year were unfavorable \$505K or 6.9%. This variance is primarily due to all the efforts to increase air service at the airport. Advertising and marketing make up \$558K of this variance and professional services were unfavorable \$28K. Expense categories that were favorable include labor & benefits \$94K, maintenance \$25K, and utilities \$12K.

There is \$3.6M in unrestricted cash and \$346K in FAA reimbursements outstanding. The decrease in unrestricted cash was due to the arrangement between PAC and PEX in regards to their launch. The pending reimbursements include expenditures for the master plan totaling \$79K, Airfield lighting design totaling \$2K, Taxiway A rehabilitation totaling \$207K, and the Consolidated Security Checkpoint Design totaling \$58K. These project expenditures will be reimbursed at a later date.
