Ok. I was under the assumption everything was to be uploaded via the secure Dropbox. That is why it was printed, scanned and uploaded the communications to the DoT. I will get this to you Monday late morning by noon. I have a board meeting during the first part of the morning.

Ken,

I reviewed the progress reports you sent and they are not in the Outlook format (pst) with the attachments I can open. Please forward all the original emails that transmitted the progress reports to Mr. Muldoon or others at the USDOT. You can do this by opening up the original email and then forward to my VDOT email account David.Kelly@VDOT.Virginia.gov

Ken,

I just wanted to check on the SCASG progress report request from this past Friday.

Dave

Ken,

Renee provided me with the SCASG progress reports that go through January 2015. Can you provide me with the subsequent reports?

Also, Please provide the original emails that transmitted the progress reports to Mr. Muldoon or others at the USDOT.

Thanks,

Dave
